Accessibility and Accommodations Options: How to Indicate Printed Alternate Language Accommodation for English Language Learners for the Math and Science Tests

For those English Language Learners taking the English edition on the computer and making use of a printed alternate language edition, schools will indicate the alternate language on the "Offline Testing Accommodations" tab by selecting the appropriate language from the listing under "Print Variations."

Selecting Print Variation and the alternate language in the Nextera Administration System will ensure the alternate language paper edition and the English CBT are the same form. This should be used by students who want to test with the English CBT version with the support of the printed alternate language edition.
