Proctor Training – Part 1

Purpose of this Training

The Proctor Training will provide proctors and test administrators details on the responsibilities for proctoring before, during and after the computer-based test administrations.

- + Part 1 of this training will review the overall roles of the Proctor during Computer Based Testing, information on testing dates for Operational and Field Testing, and helpful reminders related to Nextera Admin and how to prepare for testing day.
- + Part 2 will review different views and capabilities of Nextera Admin during and after student testing. This training will go into detail on what the student will see during testing and troubleshooting techniques for the Proctor. Part 2 will also review what to do after testing.

This training is posted under the Resources section on CBT Support at:

What is the Role of a Proctor for Computer-Based Testing?

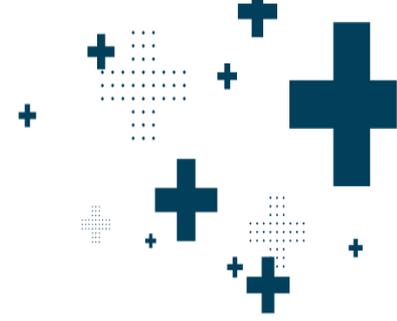

What is the Role of a Proctor for CBT?

Proctors must follow all security protocols when supervising the test administration:

- Circulate periodically around the room during the administration of each session of the test to ensure that students are not having difficulty navigating within the online test form.
- Make sure that students are recording their multiple-choice and constructed-response answers in the Nextera[®] Test Delivery System.
- Actively proctor students as they are testing to ensure that devices are working and that students do not hit the power button to turn devices off while testing.
- Before a student submits the test, proctors should review the Review screen with the student to ensure the student has answered all the questions and should point out to the student if they have left one or more answers completely blank.

What is the Role of a Proctor for CBT?

Proctors must follow all security protocols when supervising the test administration:

- Do not comment to the student on the correctness or sufficiency of any answer.
- Proctors may give students assistance only in the mechanics of taking the tests, such as understanding the navigation of the Nextera Test Delivery System.
- Ensure a secure environment is maintained.
- Do not use cell phones or other photographic devices to duplicate test materials.
 - Never take photos of the operational test, even if there is an issue that you need to report to NYSED and NWEA.

Review Question 3

The table below represents a linear function.

x	y
-1	5
1	9
3	13
5	17

Which function has a greater slope and a greater y-intercept than the linear function represented in the table?

(A) $y = 2x + 8.5$
 (B) $y = 3x + 7.5$
 (C) $y = 5x + 6.5$
 (D) $y = 10x + 5.5$

The Proctor should be familiar with all Nextera Test Delivery navigation features as well as how to tell if a student's testing device is online or offline while the student is testing.

CBT Technology Readiness

Work with your technology coordinators to make sure the devices are ready for testing:

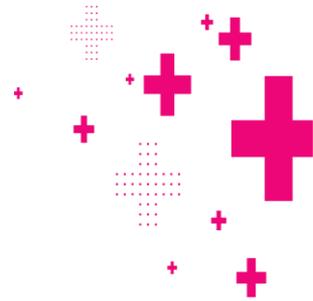

- Make sure you have enough devices for students.
- An external keyboard must be provided and available for all students testing on computer.
- Make sure all mice are working (check batteries!)
- Confirm the updated version of the Questar Secure Browser has been installed and tested on all student testing devices.
- Make sure all computers are fully charged and, if possible, plugged in.
- Consider additional hardware you want to have on hand, such as additional devices, extra power strips.

Preparing Your Exam Room

- Provide a well-lit, well-ventilated, and quiet classroom.
- Completely cover or remove from walls any aids, charts, testing posters (Equation Editor Tools, tips on using Drawing tool, etc.)
- Plan seating arrangements. Allow enough space between students to prevent sharing of answers.
- A seating chart or other record of student device assignment is recommended in the event a situation requires a student to leave and return to a device.
- Understand guidelines for permissible materials during testing.
 - For more information, please view the CBT Support article: <https://cbtsupport.nysed.gov/hc/en-us/articles/360022415891> and the Teacher's Directions for CBT <https://www.nysed.gov/state-assessment/test-manuals>

Preparing Your Students

- Help students approach testing in a relaxed, positive way.
- Encourage and motivate your students to put forth their best effort.
- Be sure students understand the directions.

Preparing Your Students: NY Question Sampler

- Be sure students have had the opportunity to practice using the practice tests in the secure browser and the online New York State Question Sampler prior to testing.
- There are four ELA and Math practice tests for each grade level and content area to further familiarize students with the testing experience. There are four Science practice tests for Grade 5 & 8.
- Usernames and passwords can be found in Nextera Admin within the Help tab and on CBT Support: <https://cbtsupport.nysed.gov/hc/en-us/articles/360000813612-Questar-Secure-Browser-Practice-Test-Logins>
- Download and print any alternate language versions of the Question Sampler from the Sampler site or access these materials and the test read editions on Nextera Admin under Help-Downloads.
- Encourage students to attempt all questions. Tell them to read each question carefully and make their best attempt at answering each one.

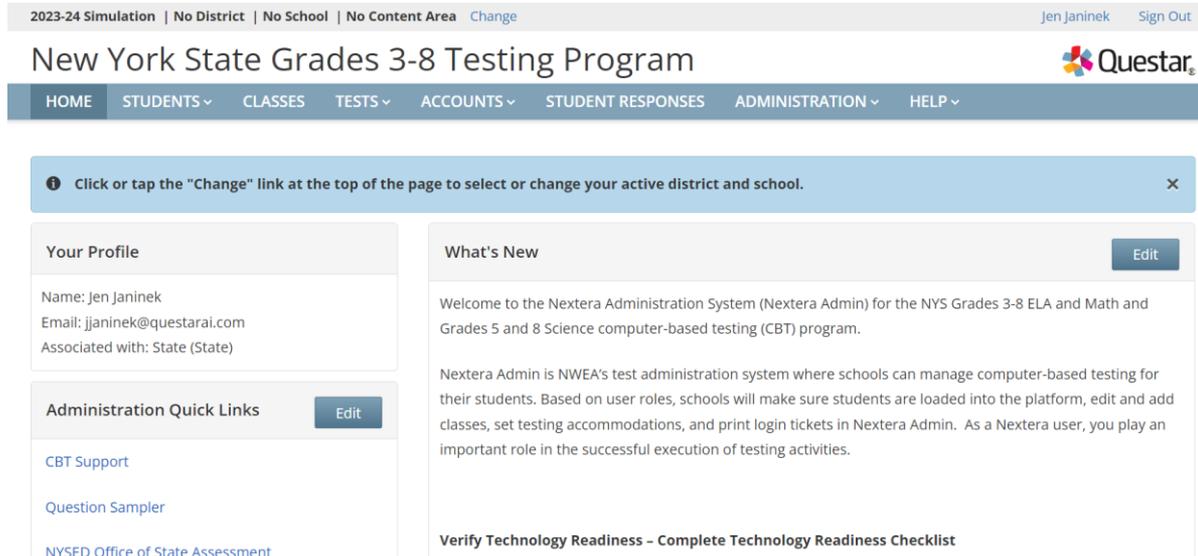

Nextera Admin

It is a local decision as to whether or not the teacher or proctor has access to the Nextera Administration System (Nextera Admin). For this presentation, we provide information for proctors/teachers who will be logging into Nextera Admin. We will go through the steps to prepare CBT for the testing day within Nextera Admin.

Examiner View

Proctors can also use the Examiner View in Nextera Admin to monitor testing status.

The School Testing Coordinator (STC) or District Testing Coordinator (DTC) can provide this during testing.

- Proctors will need to print the Student Login tickets or an administrator will print and provide the login tickets prior to each testing day depending on the roles and responsibilities of each district/school.
- Print Student Login Tickets as close to the actual test administration.
- Once the Student Login Tickets are printed, they must be stored securely.
- Student Login Tickets can not be distributed until the first day of the CBT test session.

Troubleshooting Tip for Printing Login Tickets

If you are attempting to print student login tickets on label stock and the student login tickets are not aligning properly with the labels, try the following steps:

1. Save the .pdf file
2. Find the .pdf on your local drive and open it
3. File > print
4. Click “Custom Scale: 100%”
5. Be sure paper size says 8.5 x 11
6. Click Print

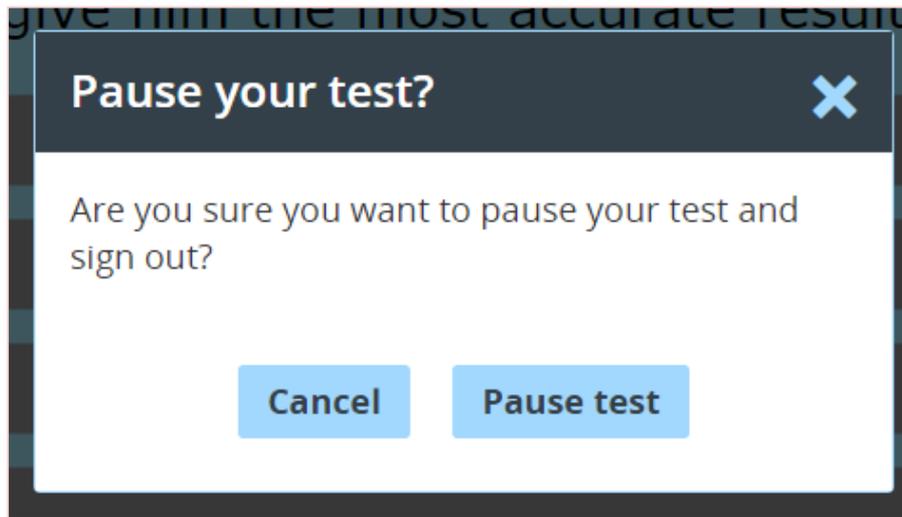

Proctor PIN

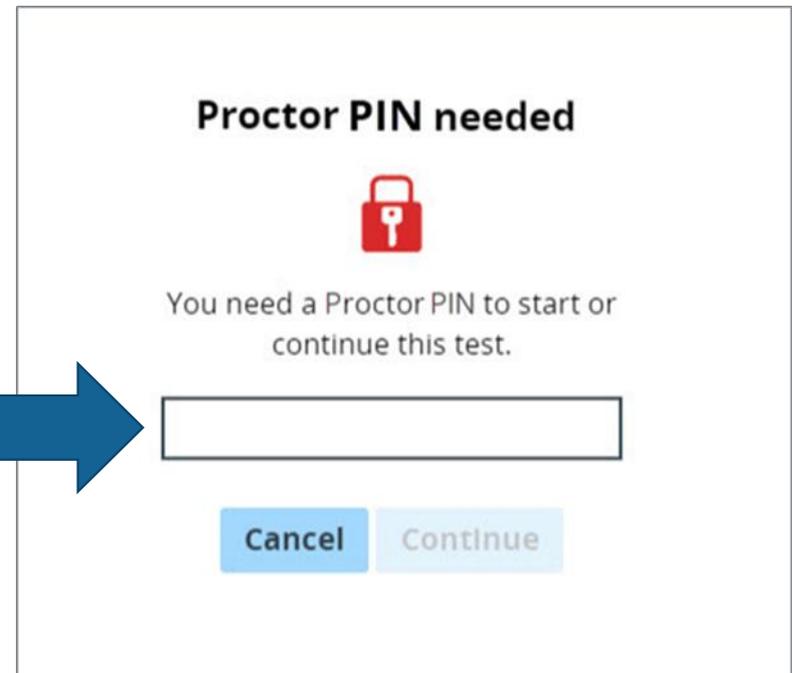

- The Proctor PIN is an 8-digit code required when a student needs to restart a paused test.
- School Testing Coordinators or Principals will provide the Proctor PIN prior to the start of each testing day.
- The Proctor PIN is secure.

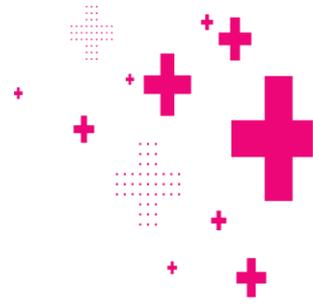

Proctor PIN

Once a test is Paused, the Proctor PIN is required to log back into the test.

Proctor PIN

Being mindful of the health and safety protocols established at schools in response to COVID-19, for the Spring 2024 administration, schools have the option of having students enter the Proctor PIN themselves. If a school chooses this option, the Proctor PIN should be reset after each test session. Please work with your Principal or School Test Coordinator to verify the Proctor PIN is reset.

Access Code vs. Proctor PIN

The Access Code and Proctor PIN pop-up boxes look similar in the Nextera Test Delivery System but require different codes.
