Statewide Computer-Based Testing (CBT) Simulation

The CBT Simulation offers the opportunity for school staff to evaluate the readiness of the school's internal systems, hardware, and school testing procedures for CBT. Participating in the simulation also gives students the opportunity to familiarize themselves with the same testing platform they will be using for operational testing in the spring.

The following checklist is for your use and will help you to prepare staff and students in your school to participate in New York State's CBT Simulation. You may retain this checklist for your use.
