

New York State Grades 3—8 Testing Accessing Student Constructed Responses — Quick Reference Guide

The purpose of this document is to outline the necessary steps for Principals and District Test Coordinators to use [Nextera Admin](#) to access students' scored responses for the constructed-response questions from the 2026 Grades 3—8 computer-based testing (CBT) administration. Schools will also have access to their students' scored responses from the 2025 and 2024 computer-based test administrations.

In Nextera Admin, principals will see their school as the only selection option in the drop-down menu on the *Student Responses* page, and District Test Coordinators will see all schools within their district in the school drop-down menu on the *Student Responses* page.

Please note: the *Student Responses* tab is only visible to the roles that have permission to access students' constructed responses.
